

Christos T. Maravelias

Department of Chemical and Biological Engineering
Andlinger Center for Energy and the Environment
Princeton University

<https://cbe.princeton.edu/people/christos-maravelias>

<https://maravelias.princeton.edu>

EDUCATION

2004	CARNEGIE MELLON UNIVERSITY PhD in Chemical Engineering	PITTSBURGH, PA
1997	LONDON SCHOOL OF ECONOMICS M.Sc. in Operational Research	LONDON, UK
1996	NATIONAL TECHNICAL UNIVERSITY OF ATHENS Diploma in Chemical Engineering	ATHENS, GREECE

PROFESSIONAL EXPERIENCE

09/20 – date	PRINCETON UNIVERSITY Department of Chemical and Biological Engineering Andlinger Center for Energy and the Environment Chair, Department of Chemical and Biological Engineering Director of Graduate Studies, Chemical and Biological Engineering Anderson Family Professor in Energy and the Environment Professor of Chemical and Biological Engineering	PRINCETON, NJ 2022–present 2021–2022 2020–present 2020–present
08/04 – 08/20	UNIVERSITY OF WISCONSIN Department of Chemical and Biological Engineering Executive Officer Professor Associate Professor Assistant Professor	MADISON, WI 2015–2018 2014–2020 2010–2014 2004–2010
01/98 – 07/99	GREEK ARMY TELECOMMUNICATIONS DEVISION National defense telecommunication network (“HERMES”) supervisor	ATHENS, GREECE

SELECT AWARDS AND HONORS

Sustainable Engineering Forum Research Award, AIChE	2024
Schiesser Distinguished Lecture, Chemical and Biomolecular Engineering, Lehigh University	2024
Anderson Family Professor in Energy and the Environment	2020-date
Paul E. Elfers Professor, University of Wisconsin – Madison	2017-2020
Production and Operations Management Society Applied Research Challenge Award	2016
2016 Covestro Lecture, Department of Chemical Engineering, Carnegie Mellon University	2016
Best Paper Award, Computes and Chemical Engineering	2013, 2015
Vilas Distinguished Achievement Professor, University of Wisconsin – Madison	2015-2020
2013 Outstanding Young Researcher Award – CAST Division of AIChE	2013
Vilas Associate, University of Wisconsin – Madison	2013-2015
2008 W. David Smith Jr. Graduate Student Paper Award – CAST Division of AIChE	2008
National Science Foundation CAREER Award	2006-2011
Inaugural Olaf A. Hougen Fellowship	2004-2007
Alexander S. Onassis Public Benefit Foundation Graduate Fellowship	1999-2001
Fulbright Graduate Fellowship (declined)	1999

SELECT PROFESSIONAL ACTIVITIES

1. LEADERSHIP POSITIONS:

- *Computing and Systems Technology* (CAST) division of the *American Institute of Chemical Engineers* (AIChE): Director, 2011-14; 2nd Vice-chair, 2017; 1st Vice-chair, 2018; Chair, 2019.
- *Great Lakes Bioenergy Research Center*: Management Team Member, 12/2017 – date.
- *Great Lakes Bioenergy Research Center*: Team Lead, 12/2017 – 11/2022

2. JOURNAL SERVICE:

- *Computers and Chemical Engineering*, Editorial Advisory Board, 2017 – date.
- *AIChE Journal*, Consulting Editors Board, 2017 – date.
- *Energy Technology*, International Advisory Board member, 2017 – date.

3. CONFERENCE ORGANIZATION:

- *Foundations of Computer-aided Process Operations 2017*: Chair.
- *Pan American Advanced Studies: Process Modeling and Optimization for Energy and Sustainability*, 2011: Chair.

4. PROPOSAL REVIEWER:

US Department of Energy; US National Science Foundation; American Chemical Society; National Sciences and Engineering Research Council of Canada; Hellenic Ministry of Education; Dutch Technology Foundation STW; Swiss National Science Foundation; The Royal Society.

RESEARCH MENTORING

Former MS Students: Brandon Paul (2020, UW), Bianca Dyer (2022, Princeton).

Former PhD Students (University of Wisconsin – Madison): Charles Sung (2009), Matthew Colvin (2010), Arul Sundaramoorthy (2011), Carlos Henao (2012), Kaushik Subramanian (2012), Patricia Nason (2013), Sara Velez (2014), Murat Sen (2014), Andres Merchan (2016), Yachao Dong (2017), Michael Risbeck (2018), Wenzhao Wu (2018), Dhruv Gupta (2019), Lingxun Kong (2019), Ho Jae Lee (2019), Xinyue Peng (2019), Yifu Chen (2021), Venkatachalam Avadiappan (2021), Yaqing Wu (2021), Joonjae Ryu (2022), Arthur Pastore de Lima (2023).

Former PhD Students (Princeton University): Eric O’Neil (2023), Garry Taifan (2023), Caleb Geissler (2024).

Current Graduate Students: Caleb Geissler, Molly McDonald, Amin Samadi, Kathy Wang, Nathan Barrett, Nathan Tran, Harshit Verma, Nicholas Kalamaris.

Former Postdoctoral Scholars: Pradeep Prasad (2005-06), Jiyong Kim (2009-13), Jeehoon Han (2012-14), Srinivas Rangarajan (2013-16), Jeff Herron (2013-15), Kirti Yenkie (2015-17), Bruno Calfa (2015-17), Wangyun Won (2015-17), Rex Ng (2015-18), Kefeng Huang (2015-19), Gautham M. Ramapriya (2016-18), Payman Fasahati (2017-19), Shamik Misra (2019-21), Ishan Bajaj (2019-22), Juan M Restrepo Florez (2019-22), Jaewon Byun (2021-22), Boeun Kim (2019-23), Jianping Li (2020-23), Robert E.F. Junior, (2022-23), Arthur Pastore de Lima (2023-24), Yingkai Song (2022-24), Julia Granacher (2023-24).

Current Postdoctoral Scholars: Emmanuel Aboagye, Leonardo Salsano de Assis.

Former Research Scholar: Nathan Adelgren (2021-23).

TEACHING

University of Wisconsin – Madison

- Senior-level *Process Design*
- Senior-level *Process Dynamics and Control*
- Graduate core course *Intermediate Problems in Chemical Engineering*
- Graduate elective course *Advanced Chemical Process Synthesis and Optimization*

Princeton University

- Senior-level required *Process Design, Synthesis and Optimization of Chemical Processes*
- Senior-level elective *Introduction to Energy Systems Engineering*
- Graduate elective *Advanced Optimization Methods for Energy Systems Engineering*

Select Short Courses (out of 10)

- Graduate Student Workshop: [Optimization Methods for Energy Systems Engineering](#), Princeton University Seeger Center for Hellenic Studies, Athens, Greece, July 1-5, **2024**.
- *Optimization for Process & Energy Systems Operations*, Seoul National University, S. Korea, **2023**.
- *Optimization Methods for Chemical Process Operations*, KAIST, Daejeon, S. Korea, May 14, **2019**.
- *Optimization Methods*, Johnson Controls, Inc., Milwaukee, WI, August 19, **2016**.

EDUCATIONAL PRODUCTS

- *Biomass Utilization Superstructure* - <https://bus.glbrc.org/>
- *Chemical Production Scheduler* - <https://cpros.azurewebsites.net/>

PUBLICATIONS & SCHOLARLY ACTIVITIES - SUMARRY

- 1 book - monograph
- 216 journal papers
- 6 book chapters
- 58 papers in conference proceedings (peer reviewed)
- 12 workshop presentations
- 51 plenary, keynote and invited conference presentations
- 5 invited named lectureships
- 90 invited lectures and seminars

BOOK

Maravelias CT. *Chemical Production Scheduling: Mixed-Integer Programming Models and Methods*. (Cambridge Series in Chemical Engineering). Cambridge University Press, Cambridge, **2021**.
